

# 3 SIMPLE STEPS

## FOR USING SCN PROFIT CHECKER

### What's your number?

Take the test.  Beat the pest.

The **SCN** Coalition™

Funded by the soybean checkoff

**SCN is the No. 1 yield robber of soybeans each year.**  
*But what does that really mean for a farmer?*

The **SCN Profit Checker** estimates the per-field yield and profit loss of SCN, driving home the need for active SCN management.

### SCN Profit Checker

The SCN Coalition™

SCN egg count per 100 cc	1500
SCN female index on PI 88788	33
Sand %	20
Soil pH	6.8

% SCN Yield Loss

**5.7**

Based on your expected yield of 53 bu./acre and your soybean price of \$12.50 per bu., your profit loss estimate is **\$37.76** per acre.

The SCN Coalition encourages farmers to work with their trusted crop advisor to determine a plan to actively manage SCN.
